

I ask that you preserve the ability of stations such as K-LOVE (WNLN) in Cincinnati to broadcast nationally and not fall prey to or be displaced by an LPFM station. K-LOVE provides our communities with a family friendly and inspirational alternative for contemporary music and advice for everyday living. The loss of K-LOVE would be devastating to many families struggling to find healthy radio station alternatives for their children as well as themselves. K-LOVE is a much needed breath of fresh air and hope for the public depending on the integrity of the media to provide honest and moral broadcasting with no political spin.

Sincerely,

Ralph Neufarth
